V and VI, Vyasa in Tibetan) (Thur-18 Jan 2013): Four Great sutta and seventeen others in four languages, with commentary and translations. In English translation, the complete Text was published in 2004 and in Chinese in 2009. The Sanskrit translation of that work is published in the Chinese version of our website (Thur-13 Jul 2007; translation and commentary in Chinese, English, and French). The English translation of this Sutta is the main source of online information about Sutta I, except for a couple of passages that contain English translations and references. The Sutra was first available as an English translation in 1998 (Sutta I in English) and it is the only Sutta to have been translated into English since then. This text has two very specific characteristics, most prominent among which are the following: Its vocabulary is fairly wide and includes a large number of words that are not widely used in Buddhism, but this is not an obstacle for traditionalists reading it.
